MORE CONFIDENCE,
MORE CONTROL,
MORE FUN

G-Vectoring Control Plus

Steer with confidence as the CX-5 gives you a reassuring feeling of control with G-Vectoring Control Plus (GVC Plus)—Mazda's very own next generation engine and steering control system that smoothes out the vehicle while cornering and stabilizes it on the straights.

In addition to reducing engine torque upon corner entry, GVC Plus applies a light braking force to the outer wheels when coming out of a turn. This provides a stabilizing moment that helps restore the vehicle to straight line running.

The result? An effortless, intuitive and relaxing driving experience that lets you and your passengers arrive at your destination as fresh as you started.

CONVENIENCE AND COMFORT

A sense of fulfillment. A recognition of success. The Mazda CX-5 realizes the achievement of your aspirations in life.
